FOR IMMEDIATE RELEASE

October 2, 2014

ultimate gymnastics is here

A group of Thunder Bay business professionals have responded to recent developments in the Thunder Bay sporting community that forced several talented young athletes out of their club and without a facility to call their own.

ultimate gymnastics, the brainchild of a group of parents of young gymnasts who have both competed and excelled at competitive provincial levels, has opened its doors this week, providing a fresh new training facility and a positive environment for children to learn the sport of gymnastics.

Head Coach Mirela Bica, who earlier this year guided ten of her athletes to the Provincial Championships, leads the coaching staff at ultimate gymnastics offering a solid base of gymnastic instruction in a fun and safe atmosphere. Recreational and competitive programs are available to teach youngsters discipline and pride while focusing on a love of sport, team spirit, friendship and support.

“Everyone is welcome at our bright new privately and professionally operated gymnastics facility, furnished with all brand new equipment and a fresh fun attitude for athletes of all ages and skill levels to enjoy” said co-owner Greg Balec.

“Furthermore no child will ever be excluded from our business” added Balec.
